

I am writing to express my interest in the Summer Internship Program at Proxym Company. I am a third-year student at the ISIMM Higher Institute of Computer Science and Mathematics of Monastir, where I am majoring in Software Engineering. I am proficient in Java, Python, and C++. I am also familiar with a variety of software development tools and technologies.

I am eager to learn more about the software development industry and to gain practical experience in the field. I am confident that I have the skills and knowledge necessary to be successful in this internship. I am a hard worker and I am always willing to learn new things. I am also a team player and I am able to work well with others.

I am particularly interested in the Proxym Company because it is a large and reputable company with a strong culture of innovation. I believe that this internship would be a valuable opportunity for me to learn from experienced professionals and to contribute to the development of cutting-edge software solutions.

I am available for the Summer Internship Program from June to August 2023. I am willing to relocate to Sousse, Tunisia for the duration of the internship.
